

OHIO'S TOP JOBS LIST

Under the direction of Governor Mike DeWine and the leadership of Lt. Governor Jon Husted, the State of Ohio extended its focus to prioritize both Ohio's economy and the health and well-being of Ohioans through Ohio's Top Jobs List. This list now includes both In-Demand Jobs and Critical Jobs.

Ohio's Top Jobs List is a customizable, online tool to help guide Ohioans on career pathways that meet their individual needs and goals, and allows them to take advantage of employment opportunities available in our state.

The user-friendly dashboard allows Ohioans to view and sort jobs by customizing to their region and/or industry. These easy-to-use reports help job seekers, educators, businesses, and community leaders make more informed decisions to solidify their short-and long-term success.

In-Demand Jobs

In-Demand Jobs strengthen Ohio's current and future strategic economic advantage and empower people with 21st century skills. These jobs have a sustainable wage and a promising future based on the projected number of openings and growth. The following criteria was used to define an "in-demand job" in Ohio:

- 80% of state median wage, \$14.90 per hour, or more;
- Annual growth in the number of jobs higher than the statewide average of 20; or
- Annual job openings greater than 620.

In addition to these state labor statistics and projections, electronic job posting trend data and business input through Ohio's In-Demand Jobs Survey are also key components in defining In-Demand Jobs.

Critical Jobs

Critical Jobs ensure that our state's workforce supports the health and well-being of Ohioans, their families, and their communities. Governor DeWine made developing the workforce in critical areas a priority because of their impacts on the lives of Ohioans at every stage of life.

Critical Jobs are identified through the help of experts and stakeholders in eight career clusters. These priority career clusters include:

- Children and Community Health
- Early Childhood Education
- First Responders
- Lead Abatement and Construction
- Nurses
- Mental and Behavioral Health
- Physicians
- Wellness Research and Technology
